CONTENTS OF *JOURNAL OF HYDROLOGY*, VOLUME 125

VOL. 125 NOS. 1–2 JUNE 1991

Research Papers

Analytical modeling of a fracture zone in the Brule Formation as an aquifer receiving leakage from water-table and elastic aquitards
W. Barrash (Boise, ID, U.S.A.) and D.R. Ralston (Moscow, ID, U.S.A.) 1

Detectability of the effects of a hypothetical temperature increase on the Thornthwaite moisture index
G.J. McCabe, Jr. and D.M. Wolock (West Trenton, NJ, U.S.A.) 25

On the probability of the longest run length in an independent series
Z. Şen (Istanbul, Turkey) 37

Note on the cyclic features in cumulative departures of annual flow series
Z. Şen (Istanbul, Turkey) 47

Un modèle simple pour la migration de radionucléides par transport colloïdal dans un milieu fracturé
R. Castaing (Orsay, France) 55

Hydrogeology of freshwater lens beneath a Holocene strandplain, Great Exuma, Bahamas
T.N. Wallis, H.L. Vacher and M.T. Stewart (Tampa, FL, U.S.A.) 93

Groundwater contribution to an acid upland lake (Loch Fleet, Scotland) and the possibilities for amelioration
J.M. Cook, W.M. Edmunds and N.S. Robins (Wallingford, U.K.) 111

Relations entre réponses impulsionnelles et conditions hydrodynamiques des systèmes dans le cadre de traçages artificiels: theorie et application sur colonne de laboratoire
M. Dzikowski, E. Carlier, N. Crampon (Villeneuve d'Ascq, France) and G. de Marsily (Paris, France) 129

Technical Note

Implications and assumptions in using the 'total counts' and convection–dispersion equations for tracer flow measurements — with particular reference to transpiration measurements in trees
I.R. Calder (Wallingford, U.K.) 149

Book Review

Guide Book on Radioisotope Tracers in Industry 159

Announcement 160

VOL. 125 NOS. 3–4 JULY 1991

Research Papers

Towards predicting future episodic changes in stream chemistry
A. Robson, A. Jenkins and C. Neal (Wallingford, UK) 161

A multivariate spatial–temporal model of rainfall in southwest Saudi Arabia. I. Spatial rainfall characteristics and model formulation
H.S. Wheater, A.P. Butler, E.J. Stewart (London, UK) and G.S. Hamilton (Riyadh, Saudi Arabia) 175

A multivariate spatial–temporal model of rainfall in southwest Saudi Arabia. II. Regional analysis and long-term performance
H.S. Wheater, C. Onof, A.P. Butler (London, UK) and G.S. Hamilton (Riyadh, Saudi Arabia) 201

Sensitivity of streamflow in the Colorado Basin to climatic changes
L.L. Nash and P.H. Gleick (Berkeley, CA, USA) 221

Stable isotopic study of precipitation and spring discharge in southern Nevada
N.L. Ingraham, R.L. Jacobson, J.W. Hess (Las Vegas, NV, USA) and B.F. Lyles (Reno, NV, USA). 243
The value of streamflow record augmentation procedures in low-flow and flood-flow frequency analysis
R.M. Vogel (Medford, MA, USA) and C.N. Kroll (Newton Upper Falls, MA, USA). . . . 259
Monthly runoff generation by non-linear models
R. Ferruh Müftüoğlu (Istanbul, Turkey) 277
A bivariate stochastic approach to estimate reliability of a pumped storage reservoir
D. Mukherjee (Stirling, UK) and N. Mansour (Birmingham, UK) 293

Discussions
Microwave transmission, a new tool in forest hydrological research—Comment
I.R. Calder (Wallingford, UK). 311
Microwave transmission, a new tool in forest hydrological research—Reply
W. Bouten (Amsterdam, Netherlands) and F.C. Bosveld (De Bilt, Netherlands) 313
